PROJECTS

Address Book
https://sharkaddress.up.railway.app/
  Full stack address book built in C# using MVC. Keeps multiple contacts sorted into different categories.

Blog
mstb.up.railway.app
  Full stack tech blog built in C# using MVC. Kept up to date with a programming diary and essays about technology that interests me.

Bug Tracker
https://stracker.up.railway.app/
  Full stack bug tracker built in C# and MVC. Allows for multiple projects and tickets to be tracked by different companies.
